Address

Istanbul, Turkey

Education

Computer Engineering

Istanbul Bilgi University | Graduated 2023

Computer Programming

Istanbul Bilgi University | Graduated 2021

Language

English / Advance ,German / Mid, French / Beginner

Technical Skills

- Languages & Frameworks: Swift & Objective-C: Expert (4+ years). Implemented complex features using Combine and async/await.
- iOS SDK: Deep knowledge of UIKit, Core Animation, SwiftUI.
- Cross-Platform: React Native. Leveraged React Native's flexibility for efficient cross-platform development, implementing custom native modules for iOS-specific functionality and optimizing performance.
- Development Tools & Practices: Xcode: Advanced usage including custom build scripts, UI testing with XCTest, and performance profiling with Instruments.
- RESTful APIs: Designed and implemented robust networking layers using URLSession and Alamofire,
- Data Persistence: Extensive experience with CoreData, including multi-context setups for improved performance.
- Cloud Integration: Integrated Firebase for real-time database and push notifications in a messaging app, handling millions of daily active users.
- UI/UX & Architecture: MVVM,VIPER,MVC
- Performance & Optimization: Concurrency.Memory Management,Code Optimization,Continuous Learning

A. MERT GÜLEÇ

IOS & MOBILE ENGINEER

About Me

Results-driven Mobile Engineer with expertise in building scalable, intuitive, and engaging applications. Skilled in Swift, SwiftUI, UIKit, Objective-C, and React Native, with hands-on experience in Xcode, Expo, and cross-platform development workflows. Strong problem-solver and effective collaborator, passionate about delivering seamless user experiences.

Seeking to contribute as an iOS & React Native Engineer within an innovative team, driving impactful projects while continuously advancing technical expertise across native and cross-platform ecosystems.

Work Experience

● Mobile Developer (iOS & Mobile Engineer)

Freelance & My Projects, Worldwide

2022 - Present

- Proven track record of delivering scalable, high-performance mobile applications with a 100% 5 ★ client satisfaction rate across global freelance platforms. Expert in Swift, SwiftUI, UIKit, and React Native, enabling seamless delivery for both iOS and Android ecosystems. Skilled in integrating AI services, cloud backends (Firebase, Supabase), and payment solutions (RevenueCat, Stripe), ensuring security, performance, and scalability. Experienced in CI/CD pipelines and product analytics, aligning technical execution with business goals to drive measurable outcomes in user engagement, retention, and monetization.

● iOS Developer

Crovu Software, Turkey

2020-2022

- Contributed to the development team by creating innovative and user-centric iOS applications, enhancing the company's mobile offering. Applied advanced Swift, SwiftUI, and UIKit techniques to develop engaging UIs and robust functionalities, adhering to best practices in software development.

Some of my personal Projects

- **FitZen: AI Diet & Nutrition Coach**(★ 4.8/5 rating)
- **Technologies:** React Native, Expo, Firebase (Auth, Firestore, Storage, Functions, Analytics), HealthKit,Rest API's
- **Description:** Built a full-scale cross-platform diet & nutrition app with React Native + Expo, ensuring seamless performance across iOS and Android. Leveraged Firebase (Auth, Firestore, Functions, Analytics, Push) for scalable backend services. Implemented AI-driven food scanner, fasting & nutrition modules, and real-time data sync, optimizing user experience and system reliability at scale.
